

# What to do if Your Child is Unwell or Requires Medication

## Illness

The nursery and playclub staff are unable to administer to the needs of children who are at all unwell. Parents need to make contingency plans to cover such an eventuality.

In the interests of all children, parents need to keep us informed of any illness as outlined below?

- Sickness and Diarrhoea - 24 hours clear so please refrain from bringing your child to the Mews until the symptoms have settled and 24 hours has elapsed.
- Other childhood illnesses - please inform the nursery staff who will advise you on the necessary length of absence from nursery.

## Medication

We are advised to obtain written permission to administer any prescribed medication. A medicine book is kept in the nursery into which the following details must be entered:

- Name of medication
- Dosage
- Time
- Reason for Medication
- Your signature

Please note we are advised not to give any medication unless prescribed by your doctor.
